Desired Occupational field

Software Developer/ Engineer

Work experience

Dates	11/06/2012 - 06/08/2012
Occupation or position held	Software Developer/ Entrepreneur. Participant of 'Summer of Start-ups, 2012' program organized by 'Aalto Entrepreneurship Society'
Main activities and responsibilities	I was part of a media content sharing related start-up named Eighty-Five Media and was working on a product named Break-it. During my time with this assignment I worked on several phases of application development starting from choosing the right tools and methodologies to implementing those task successfully. I had an opportunity to get introduced to Android development and web app development for android with Phone gap. I also got my hands-on on Node.JS and Mongo db.
Name and address of employer	Eighty Five Media, Aalto Venture Garage, Betonimiehenkuja 3 D, 02150 Espoo (Finland)
Type of business or sector	Media and Content
Dates	01/06/2010 - 30/06/2012
Occupation or position held	Software Developer
Main activities and responsibilities	Amongst various roles I had in Ericsson. I was a system integrator responsible for daily node upgrades with newly delivered software packages. I was part-time enhancer and modifier of Integration database website. I was a software developer and with an enthusiastic team created a software with C++ for a newly integrated hardware for a media gateway node. I also had an opportunity to get introduced to software development concepts such as continuous integration (Jenkins and Maven), version control system (Clear-case and Git) and work methodologies (Agile and Scrum).
Name and address of employer	Oy LM Ericsson AB, Hirsalantie 11, 02420 Kirkkonummi (Finland)
Type of business or sector	Information and Communication
Dates	02/02/2009 - 30/06/2010
Occupation or position held	Research Trainee
Main activities and responsibilities	I was part of a research team working on Artemis supported project named SysModel. Apart from Finland the project had partners from other Nordic countries as well. During my time as a research trainee I learned about system level modelling and system-on-chip concepts and also worked with SystemC, a system level modelling language. I also completed my thesis under the title "Implementing a graphical user interface in Qt for a System level multiprocessor System-on-Chip platform".
Name and address of employer	Tampere University of Technology, Korkeakoulunkatu 10, 33720 Tampere (Finland)
Type of business or sector	Education and Research
Dates	05/05/2008 - 31/08/2008
Occupation or position held	Seasonal Trainee
Main activities and responsibilities	I was introduced as a trainee in the team to get the team familiarize and get going with Qt. I had a few months Qt experience prior to this position and during my time at Nokia I planned, designed and implemented user interface in Qt to be used in the future by the team to get Qt-awareness and learning.
Name and address of employer	Nokia Oyj, Hermia 6 Visiokatu 3, 33720 Tampere (Finland)

Type of business or sector	Research and Development
Dates	02/01/2008 - 25/04/2008
